

PROFILUM®
PREMIUM SERIES

PROFILUM®

Ready-to-use operating mix for surface preparation by air-blasting

Profilium's range of steel grits and its accompanying support services ensure that you obtain the best results from your blasting process.

Quality

- Optimal surface profile for an improved coating adhesion,
- Low conductivity for a minimal surface contamination,
- Sustainable performances thanks to the high stability of the operating mixture.

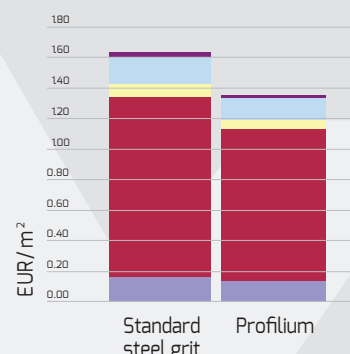

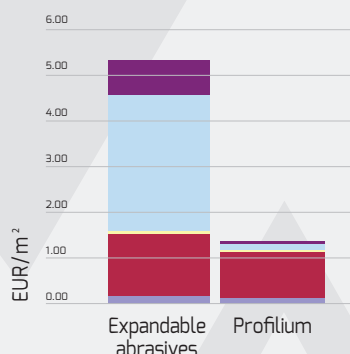

Working conditions

- Improved working conditions for the operator due to less dust and greater visibility,
- Less environmental impact.

Cost

- High cleaning rate & low consumption for an unrivalled cost efficiency,
- Optimized surface profile for a low paint/coating consumption.

Blasting cost

PREMIUM PRODUCT

- Exclusive grading which guarantees the consistency and effectiveness of the operating mixture,
- Specially heat treated to give the ideal balance of cleaning efficiency and durability.

SUPPORT SERVICES

- Calculation and optimisation of blasting process costs,
- On-site team training,
- Technical support & consulting services.

PROFILUM® TECHNICAL DATASHEET

Product name	PRO 23	PRO 45	PRO 58
Nominal size (Sieve #)	0,71 mm (#25)	0,42 mm (#40)	0,30 mm (#50)
Hardness	> 64 HRc		
Density	7,6 mini		
Chemical composition	C≥0.85% _ Si≥0.4% _ 0.6%≤Mn≤1.2% _ S≤0.05% _ P≤0.05%		
General shape	Angular		
Product Illustration			

A range of products developed specifically for manual or robotized surface preparation operations by air-blasting.
